WHY Qi?

Qi is a proprietary blend of herbs, vitamins, minerals, and antioxidants designed to increase energy, gain mental clarity, lose weight, and provide you with an overall sense of well-being. Through this blend of high-quality ingredients, you'll balance food cravings, suppress your appetite, and naturally speed up your metabolism. Qi enables you to lose fat by enhancing the body's natural energy heat production process known as thermogenesis. Thermogenesis increases metabolism, allowing the body to slow down fat storage.

INGREDIENTS:

Vitamin B-6: Required for the nervous system, brain function, DNA function, cell production, and normal cell function.

Vitamin B-12: Helps keep your body's blood and nerve cells healthy, prevents megaloblastic anemia.

Choline: is a vital nutrient that helps the liver and brain function properly and may help reduce the risk of fatty liver.

Calcium: It is necessary to build and maintain strong bones. Your heart, muscles, and nerves need calcium to function properly.

Magnesium: It is essential for hundreds of metabolic processes and many other important bodily functions, from energy production to building important proteins. Improves blood pressure, mood, and blood sugar control.

Chromium: keeps blood sugar levels stable through the proper use of insulin.

Beta Phenylethylamine: Taken to improve athletic performance, depression, weight loss. It also helps focus mood and concentration. It is also believed to be a neuromodulator and promotes energy, elevates mood.

Citrus Aurantium: improves sports performance, helps with weight loss, slightly suppresses appetite.
